

Grading Practices

School: Kellam High School

Subject(s): Earth Science

Grade Level: [Click or tap here to enter the grade level.](#)

Homework

Homework will not be assigned for a grade. However, it may be necessary for incomplete class assignments, vocabulary, projects, and/or test/SOL review to be completed outside of class hours.

Late Work

Late formative assignments/projects will be accepted until one week before the end of the marking period and no more than a 20% penalty could be applied. Late summative assessments will be accepted until one week before the end of the marking period and no penalty will be applied.

Explanation of Zeroes

Missing formative assignments will be marked in the gradebook as "Missing assignment" and 0% credit will be entered into the gradebook until the missing assignment is completed and turned in. Missing summative assignments not made up by one week prior to the end of the marking period will be marked with a zero and an incomplete will be given for the marking period.

Reassessment

Any failing summative assessment may retake after satisfactorily completing a remediation assignment. The higher of the scores will be placed in the gradebook. The re-take and any prerequisites must be completed within two weeks of the original test being returned. Higher reassessment scores will replace previous score.

Make-up Work

All missing assignments due to absence are expected to be made up within (3 school days) but will be accepted until 1 week before the end of the marking period. There will be no reduction of points for makeup work. After 3 school days the late work policy will apply to these missing assignments. The teacher may provide an alternative assignment for missed class lab and practical assignments.
