

Grading Practices

School: Kellam HS

Subject(s): Math

Grade Level: GEOMETRY SERIES

Homework

Homework will count for 10% of a student's overall grade.

Late Work

Students may submit assignments within the unit they are assigned. Incomplete or missing assignments that have not been turned in by the date of the unit test will be counted as 0s.

Explanation of Zeroes

Zeros will be given to assignments that do not meet due dates. See latework policy. In the gradebook a code of "M" will be assigned to assignments that have yet to be done/missing, but can change once a student turns them in. A code of "I" will be given for incomplete assignments and also can change once assignment is completed. Any missing or incomplete assignments will become permanent zeros if not turned in by the unit test.

Reassessment

Students' grades for test grades will replace quiz scores if higher. Students may retake 1 test per semester. In order to be eligible students must have all assignments and reviews for the unit complete, have corrected the quizzes/previous test from the unit, and/or attended tutoring. Students who have not yet mastered material and/or failed a summative assessment will have various chances to be reassessed on content throughout the year. These assessments will include, but are not limited to quarterly review quizzes and the midterm and final exams. Students will be given sufficient review for each quiz/exam through daily reviews and study guides before each assessment

Make-up Work

Students who miss a class are responsible for seeking out the work that they've missed including homework, test, and quizzes. Students who miss a test or quiz have the opportunity make it up by a date mutually decided by the student and teacher, but must be completed by the end of the quarter.

Extra Credit

Extra credit may be given in the form bonus review or extension questions on a test. No extra credit assignments/projects will be given.
