

Grading Practices

School: Kellam High School

Subject(s): Music Theory I, Music Theory II, and Guitar

Grade Level: 9-12

Homework

The Music Department believes that homework is usually part of other work: classwork, projects, portfolio development, etc. Homework becomes an extension of class time. There will not be a separate homework grade. Homework will not account for any portion of a student's overall grade.

Late Work

The Music Department believes that students should be able to complete late work in a timely (depending on circumstance) manner.

Explanation of Zeroes

Students who willingly do not turn in work (after attempts have been made by the teacher to collect work) choose to receive a grade of zero.

Reassessment

The Music Department believes that students should be able to re-work and/or re-submit an original assignment for full credit.

Make-up Work

The Music Department believes that students will be able to complete make-up work for absences that is equivalent to the original assignment, for full-credit, by the end of the grading period.
